AT LAST WEEK'S MEETING... We had a great turnout with Mark and Kelly visiting. Leanna Seidenberger is officially a new member! We are expecting 10 families for Kids Christmas and Allen Gaines is getting Santa to read to the children and give them gifts. David Bloodworth decided to fine all the big hatters for not reading the award-winning Flash for their reminders. Josh and Bobby covered tournament stuff: The brackets are on the website, prizes will be drawn for ad sales on the 8th, press releases going out soon, ribbon cutting on the 27th, Morry is having a blast with Manpower. The end.

The Little Ice Age was a cooling period between 1550 AD and 1850 AD. In the winter of 1780, New York Harbor froze, allowing people to walk from Manhattan to Staten Island. London's River Thames froze frequently during the Little Ice Age. The Baltic Sea froze several times where sleigh rides from Poland to Sweden were possible and temporary inns were built along the way. Several wars, famines, inflation and even the shrinking of the size of the people are all attributed to the cooling period. As with any climate change, scientists can only theorize on the causes and they speculate that the sun was simply less active. Hopefully, next week's theme will be the Medieval Warm Period...

The **6 PM TUESDAY Bball Meeting** will be on the second floor of Platinum Bank. Park next to Embassy and enter on the South Side (towards Cardinal's). Will be short meeting. **Wednesday Shopping at 6AM** at Wal-Mart (Frankford and 82nd) for Kids Christmas. We will wrap on Thursday at club. Bring your Vanilla Ice CDs...

District Meeting
It went well at Faissal's house and only lasted 1 hour (interesting concept). The district will be sponsoring the trip to Morgan's Wonderland for kids with disabilities in 2012! Also, the visibility luncheon is being planned (Feb 27).
