tournament

### Speaker

Kirk and Shawn Williams  
have a vineyard near Tokio  
Texas. Kirk is also a Senior  
Teacher in Viticulture and  
Enology at TTU. They have  
events September 21st  
through October, including  
wine and pumpkin events.  
Their website is

Notes from the last meeting... At the 3rd Thursday of August, several items were discussed. There was ongoing discussion about the possible options on AmTryke logistics. The pic below shows Annalisa discussing trykes and her trip to the National Convention. She informed everyone of some of the new trykes that will be available soon. The new trykes are easy to assemble with several upgrades.

Our speaker, Nathan Bryant, is the Executive Director of High Point Village in Lubbock. Nathan graduated from Tech and received his law degree from the University of Houston. He has spent the last 20 years leading ministries and serving as a pastor in different areas. Nathan and his wife have an adult son that is special needs. As a sports fan, Nathan was interested in our tournament and was familiar with our trykes. He talked about the usage of AmTrykes at High Point and AMBUCS and High Point's very similar mission statement. He also talked about their expansion that is currently underway that will finally realize the dream of allowing housing on their property. Several members in attendance were interested in helping and Nathan agreed to send in a request to the board. After several questions, the meeting ended on time.

Editor's note: After a quick tour of Milestones, it is apparent that our AmTrykes receive a lot of use from kids with all abilities. There is an opportunity to either have a demo site or simply give several trykes to Milestones for their use.
